Financial Crisis in Japan – 4 phases

The financial crisis in Japan can be divided into 4 phases

Disposal of excess capacity

Financial Crisis in Japan – Phase 4 (2001-2002)

- 1. What happened?
 - The merger and consolidation of banks accelerated
 - Early and full completion of non-performing loan issues among major banks was strongly expected
 - Limit and change of bank's supporting stance
 - bankruptcies of large corporate with excessive debt increased
 - Focusing on need for turnaround of companies with excessive debt
- 2. Policy direction / Major initiatives

Again I was in charge

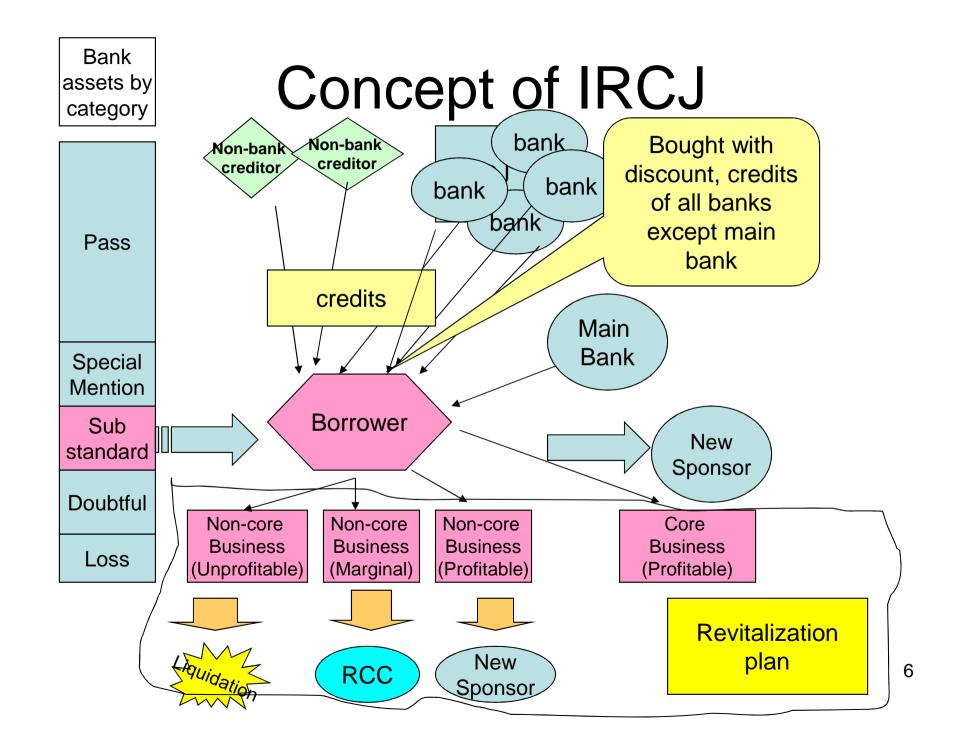

- Mandatory disposal of NPLs from B/S within 2 to 3 years (major banks only)
- A mandatory quantitative objective was imposed on major banks
 - -- NPL / total asset ratio must be lower than half of the current level by FY2004
- On April 2003, Industrial Revitalization Corporation of Japan (IRCJ) was established to support companies while they were being restructured (see page28)
